only speaker meeting)

## Alamogordo Public Schools

**Alamogordo Public Schools**  
**goes where we haven't gone**  
**before: Z-Space!**

In an effort to continue advancing into the future of  
education, Alamogordo Public Schools has ventured  
out of the ordinary and into Z-Space. What is Z-Space?  
To put it simply, it is a three-dimensional computer  
tool that allows instructors to bring complex  
immediacy to lessons. It also allows students to see  
things up close when it might be otherwise too  
dangerous or impossible to see. Have you ever wanted  
to see a beating heart up close? With Z-Space you can.  
While studying Shakespeare's plays a student can see  
the inside of the Globe Theater where the plays were  
performed, even though the theater burned down more  
than 400 years ago! Have you ever wanted to  
deconstruct the Eiffel Tower or journey with the NASA  
Mars rovers exploring the base  
of Olympus Mons? With  
Z-Space both of these things  
are possible. Z-Space is a  
teaching tool for the future at  
APS today!
