## SPECIAL THANK YOU

**Huge thanks** to all the men and women in the Public Works Department for all their dedicated and professional help throughout this pandemic, and every day of the year. These dedicated workers, supervisors and managers are sometimes overlooked, taken for granted, or not recognized for their contributions to our community. Much of the work done by the Public Works Department allows other individuals and businesses the ability to complete their work and provide services to our community. Next time you turn on your water, wash your hands or have a drink, flush a commode, throw out your trash, drive down a road, or depend on a fire or police unit to get to you location (because we work on their units to keep them running) or go through a traffic signal that keeps you out of an accident, please thank one of these hard working Public Works individuals. I am grateful for each of them as they continue to work hard for the citizens of the city and even the county, providing necessities for every day living. Public Works employees affect someone daily, providing very specialized, professional services to our community. As I have stated in the past and will continue to do so, these employees are "The Backbone" of the City. They affect every department within the city and every citizen. I would like to recognize the hard workers of the City of Alamogordo's Public Works Department, a Department that I am extremely proud to be a part of and express my gratitude to each and everyone of them for their dedication and hard work.

Larry Garner, Public Works Director
