March 11th, 2022 7pm - Six Appeal This is not your average a cappella group. Winners of the world's largest a cappella competition in Moscow, and the National Harmony Sweepstakes Championship, Six Appeal is one of the busiest touring a cappella ensembles in the country. From coast to coast, the group has become known for their vivid musical style, unmatched energy, and playful charm. Their far-reaching repertoire spans a multitude of decades and genres, including Pop, Country, Classic Rock, Jazz, R&B, and much more. www.flickingercenter.com

The 100% Otero Housing Committee meets monthly to discuss issues such as barriers to affordable housing and housing insecurity among our student population. This committee has just participated in a statewide and nationwide census of people experiencing homelessness, held annually entitled the "PIT Count." Results will be available to share in the coming month.

Housing insecurity can be caused by and can create additional adverse childhood experiences (ACEs). ACEs are traumatic events experienced during childhood. Housing is a basic need just for surviving in our society, thus Housing is one of the "sectors" of the 100% Otero Initiative, founded locally in early 2020. Reducing ACEs is the focus of 100% Otero.

Currently in Otero County there is no overnight or emergency shelter. There are multiple resources which can help on a limited basis with rent or utility assistance, but these do not address immediate emergency needs nor provide a long-term solution to the lack of affordable housing.

One way to help address homelessness is to advocate for improved resources by contacting elected officials to let them know you are concerned. If you would like to participate in the 100% Otero Housing meeting, contact Maureen at maureen.schmittle@state.nm.us

AFRC Catalog

Alamogordo Fire Department

AFD always sees an uptick in dumpster fires when the weather turns cold. These fires are preventable if ashes are properly handled and disposed of.

The fact is, coals and ashes from fires can remain hot enough to start a fire for many days after you think the fire is out. The exact amount of time for complete extinguishment and cooling depends on many factors such as how hot the fire was, what was burning, & how much unburned fuel remains. To be safe simply treat all ashes and coals as hot, even when you think they had time enough to cool.

To properly dispose of ashes or coals we recommend the following:

- If possible, allow ashes and coals to cool in the area where you had the fire for several days. These devices are designed to contain their heat safely.
- When it is time to dispose of the ashes, transfer them to a metal container and wet them down.
- Keep the metal container outside your home and away from any combustibles until the refuse is hauled away.
- DO NOT place any other combustibles in the metal container.
- DO NOT use a combustible container.
