**Medical and Dental Barriers to Access**

When thinking of contributions to adverse childhood experiences, we do not normally consider access to medical and dental care. Lack of access to health and dental care may reduce a person's quality of life starting at a very young age and increase morbidity and mortality later. The 100% Otero Medical/Dental Team is a group of volunteers representing various healthcare organizations and services tackling barriers to healthcare.

Input and guidance is needed from those providing healthcare or dental services. Please consider joining 100% Otero's Medical/Dental Team. All are welcome!
