Understanding the Special Flood Hazard Area

What is the Special Flood Hazard Area (SFHA)

An area having special flood, mudflow, or flood-related
erosion hazards, shown on a Flood Hazard Boundary Map
(FHBM) or a Flood Insurance Rate Map (FIRM). About
50% of Alamogordo is within the SFHA.

Building in the SFHA

For all new construction in Alamogordo, developers must
go through the Planning & Zoning department before
proceeding to Construction Industries Division at the state
level. A Flood Map Information Request is required for
all new construction. With the information from the Flood
Map Information Request Form, the city will provide the
beginnings of an Elevation Certificate which will include
the Base Flood Elevation. All new construction in the
SFHA must be built at or above the BFE provided for that
specific property. Once construction is complete, a li-
censed surveyor must complete the Elevation Certificate
started by the city, showing the new building was built at
or above the BFE.

Protecting Yourself

You never know the depth or threat of water. If a road is
flooded, turn around, don't drown.

Protecting your property

Take precautions to protect your property from flooding.
Make sure mechanical equipment is elevated above the
BFE and keep important documents in an elevated
location.

Homeowners and renters in the SFHA should purchase
flood insurance to help protect their assets in case of a
flood.

Protecting the Floodplain

The City of Alamogordo has manmade flood channels as
well as natural arroyos that carry floodwaters through our
community. It is imperative to keep these flood channels
clear to not disrupt the flow of water. This means no
dumping waste in our flood channels and arroyos.
